SUPPLEMENT TO  
REPORT NO.

THIS IS UNEVALUATED INFORMATION

1. Location: The Power Plant is located south of the large powder factory, about 2.4 miles west of ALEKSIN (37°05'E/54°30' N), Tula Oblast, north of the railroad line to KALUGA.

2. Plant installations: The power plant was destroyed by the Soviets during the war and the machinery was transferred to the Ural Mountains. Since 1945, the plant has been reconstructed and enlarged. At time of observation the plant had resumed operation with two steam boilers and two turbines and two new steam boilers had been installed. Two complete sets of machinery from the power plant in ELBING (East Prussia) were stored in the open. A railroad connection was available. For plant layout see Annex.

3. Work force: 150 Soviets and 200 PWs working in 3 shifts.

4. Capacity: No exact data was available. The plant supplied power to the powder factory and nearby industrial installations.

25X1		Comment:
------	--	----------

a. Report confirms the essential plant layout of the power plant of the chemical plant in ALKESIK, as previously reported + and furnishes supplementary details on the enlargement of the turbine houses and the number of boilers and turbines.
